Esplanade Tergesteo

This luxury retreat introduces guests to ancient Roman thermal bathing traditions while providing the ideal base for exploring Veneto's renowned art cities, medieval villages and the volcanic landscapes of the Euganean Hills

THE EXPERIENCE

Set in the spa town of Montegrotto Terme, in the heart of Veneto, the retreat is surrounded by the ancient Euganean Hills, a remarkable volcanic formation created more than 35 million years ago. These unique geological conditions give rise to one of Europe's most celebrated natural treasures: thermal waters that emerge from deep underground at temperatures reaching 87°C. For centuries, these mineral-rich waters have been revered for their restorative properties. Today, guests can admire the archaeological remains of ancient Roman baths in the town centre, a testament to a wellness tradition that has endured for millennia.

A STANDOUT CHOICE

EsplanadeTergesteo reinterprets this ancient heritage through a contemporary vision of luxury, wellbeing and personalised hospitality. At the heart of the hotel retreat is a collection of thermal pools, where guests can enjoy open-air bathing

year-round, surrounded by the serene beauty of the Euganean landscape.

The adults-only RoofTop54 Spa offers a panoramic saltwater pool, Finnish sauna, hammam, infrared cabin and invigorating plunge pool, all complemented by sweeping views across the rolling hills.

Wellbeing extends to the culinary experience. The signature Long Breakfast encourages a leisurely start to the day, while Bistrò54 serves refined light cuisine in an elegant poolside setting. Pepita Restaurant showcases regional flavours alongside international influences in creative, contemporary dishes.

The Vital Spa Suites feature private saunas, outdoor mini pools and wood-burning fireplaces, while bespoke wellness programmes, developed with experts, encourage habits that continue long after guests return home.

Combining thermal traditions with contemporary luxury, Esplanade Tergesteo offers a deeply restorative escape. esplanadetergesteo.it

INSIDER TIP

Take time to discover the medieval villages of Arquà Petrarca, Monselice and Este. Each offers a different glimpse into Veneto's rich heritage. Wander through Arquà Petrarca's cobbled lanes and olive groves or explore Monselice's beautifully preserved walled centre, hilltop castle and the Monte Riccio hiking trail. The town of Este is known for its impressive ancient fortifications and elegant gardens. These charming towns are easily reachable from Montegrotto Terme by car or public transport, and all of them reveal a slower, more authentic side of the region.
